2010-11-18 NonDirective Comment Responses for RI.pdf

Eric, Chip,

Attached please find three tables that provide the LWG's responses to the key issues associated with EPA's non-directed comments on the draft Remedial Investigation, draft Baseline Ecological Risk Assessment, and draft Baseline Human Health Risk Assessment.

Please note that the LWG disagrees with three of key issues (2 related to the draft RI comments, and one associated with the draft BHHRA comments). Specifically, the LWG disagrees with EPA's recommended changes and additions to the draft RI Section 10.2 (i.e., linking sources to in-water sediment impacts), the inclusion of new data sets to the revised RI, and the addition of PBDE to the BHHRA. Our rationale for our position on these three issues is included in the attached tables.

Please let us know if you have any questions.

Thank you,

Jen Woronets ☺
